The Evolution of Bins

A well-designed bin does far more than just collect waste, it directly affects the experience of the entire public realm, shaping how clean, welcoming and thoughtful our shared spaces feel.

Developing bins since the 1980s, our journey reflects a continuous commitment to functional innovation, modern aesthetics and durable craftsmanship.

Frequently asked questions

How durable are your products?
Street Furniture Australia's products are designed and proven to last decades with correct maintenance.

What is your warranty period?
Standard products are warranted for 5 years, and tailored products for 1 year. Our policy can be found at streetfurniture.com/warranty

How do you maintain timber?
Oiled wood needs re-oiling every 3 months, while raw wood can be left to silver naturally. For a wood look with low maintenance, choose Aluminium Woodgrain (also known as Wood Without Worry).

Do you sell spare parts?
Street Furniture Australia ensures that customers are able to purchase spare parts for the entire life of the product, or for a period of up to 5 years after the product has been discontinued.

We believe our responsibility to customers lasts long after installation.

Go smart with eBin

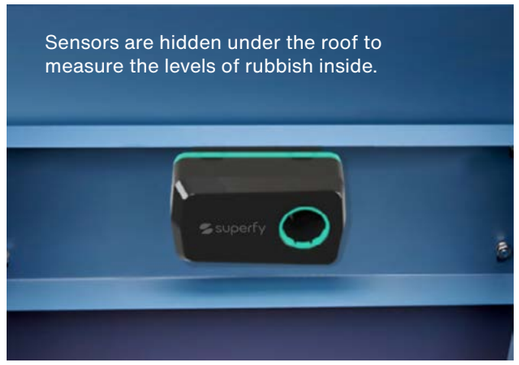
eBin is a low-risk way to trial smart bins. Each bin is fitted with a Superfy sensor to let you know when it is full or reaching maximum capacity. You will also know when it was last emptied, and receive fire alerts for increased safety.

Using Superfy sensor technology, all the data is laid out in an interactive map so even the most remote locations can be managed with ease.

Each bin with eBin comes with 12-month access to the Superfy application available via desktop or phone. The access period can easily be extended directly through Superfy.

eBin saves money, time and the environment. It is a simple and low-risk solution to add smarts to waste management.

eBin is available with Linea Bins, Aria Bins and Escola Bins.



Sensors are hidden under the roof to measure the levels of rubbish inside.

Superfy Dashboard

How to activate your bin

Step 1 | Swipe the magnetic key to activate the sensor. A single 'beep' indicates activation.

Step 2 | Download the Superfy app or access the dashboard on a web browser.

Step 3 | Log in with the account details provided.

Step 4 | Start tracking and customise your dashboard.

Escola eBin 120L (WBE-EBIN120) in Textura Deep Ocean, Rectangle insert in Lobster Red, Circle insert in Brilliant Yellow.

Each eBin can be laser etched with eBin graphics or custom graphics of your choice.

Colours & Finishes

All colours are applied in our factory and quality controlled to ISO and EFSG standards.

Version 11 © SFA 2026

Batten Options

Battens come in 40 × 20 mm (1.57 × 0.79 in), 63 × 30 mm (2.48 × 1.18 in), and 85 × 30 mm (3.35 × 1.18 in) profiles. Aluminium battens are available in a wide range of finishes, including Woodgrain w(Wood Without Worry), anodised, powder coated in a single colour, or powder coated in multiple colours.

Eco-certified Wood

Wood is only sourced from certified managed forests.

Engineered Wood *FSC Certified* NEW

Compressed fast-growing tree fibres that looks and performs like hardwood.

Hardwood *PEFC Certified*

Australian native hardwood with a contemporary aesthetic.

Oiled wood needs re-oiling every 3 months, while raw wood can be left to silver naturally. For a fade-resistant, low-maintenance timber look, choose Aluminium Woodgrain (also known as Wood Without Worry™).

Low Carbon Aluminium

Aluminium is produced using renewable energy and is infinitely recyclable.

Aluminium Woodgrain (Wood Without Worry)

'Set and forget' timber alternative requiring only an occasional wash down.

Aluminium Anodised

Crisp metallic finish with cooling properties for hot summers and minimal maintenance.
