

WBE-F Panel Template

Use this template to create your own art for products:

- 1) Frame Bin Enclosure 120L, with panels (WBE-F120-PAN)
- 2) Frame Bin Enclosure 240L, with panels (WBE-F240-PAN)

120L door and back panel

Applies to Frame Bin Enclosure 120L, with panels (WBE-F120-PAN)

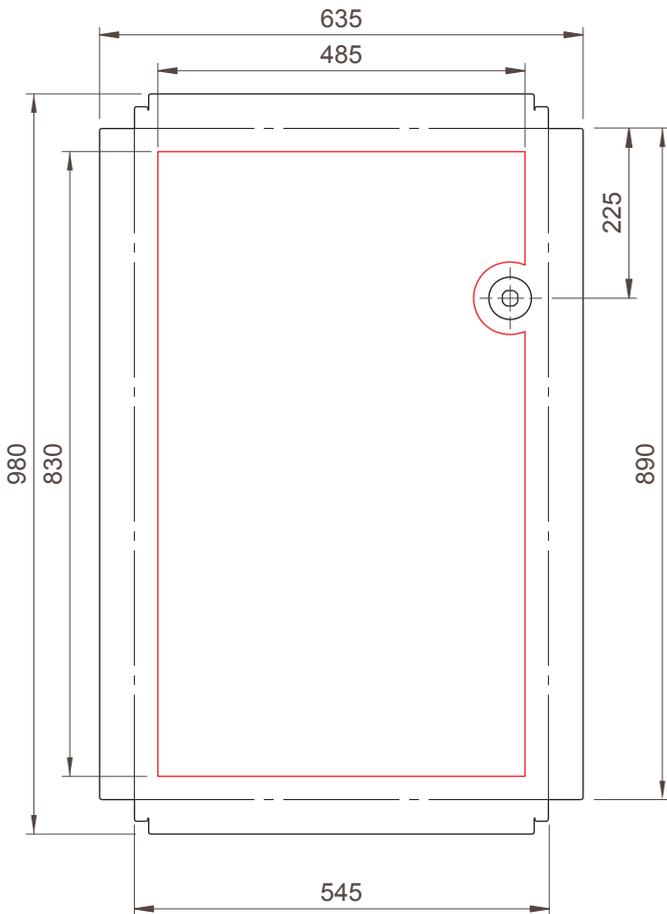

Scale 1:10 @A4

If you intend to create panels with laser cut patterns, the design needs to be kept within the red bounding box.

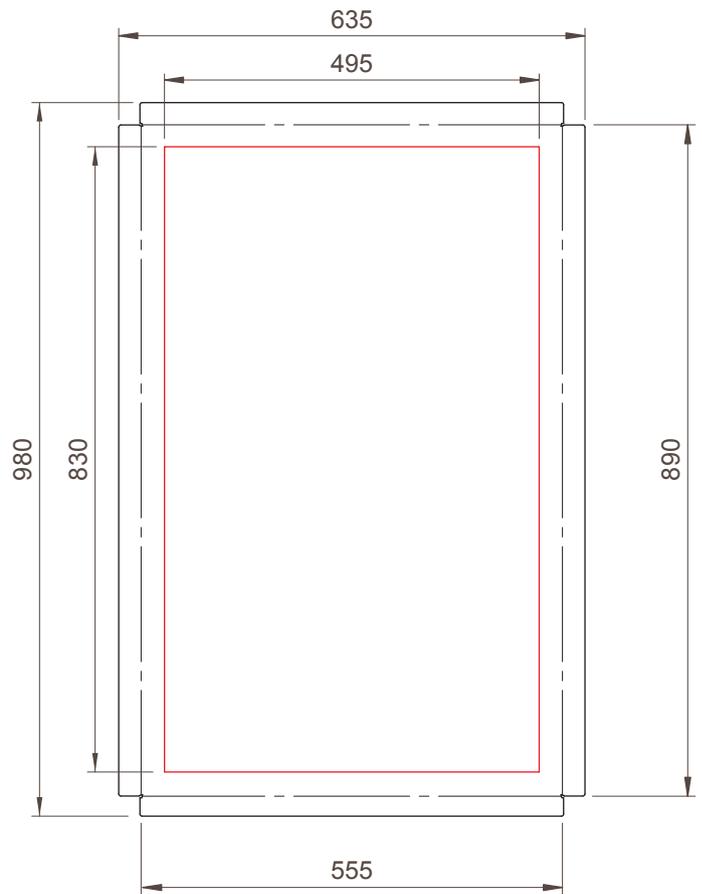

Files must be dxf, eps or ai.

Sublimated or vinyl-wrap images should refer to the dashed lines with additional 10mm of bleed.

Images must be minimum 300dpi.

DOOR PANEL - (D)

BACK PANEL - (B)

120L left and right panel

Applies to Frame Bin Enclosure 120L, with panels (WBE-F120-PAN)

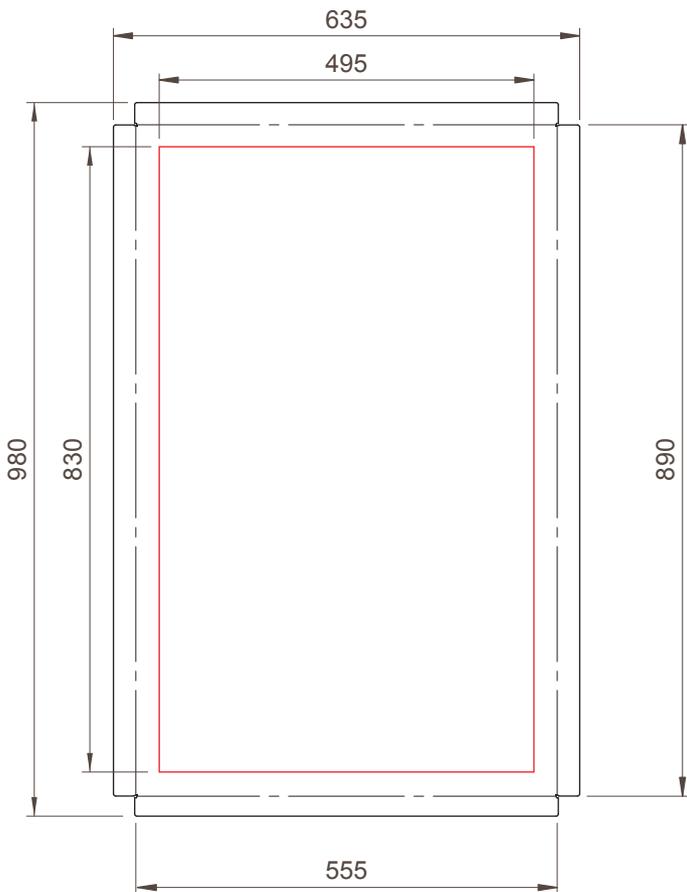

Scale 1:10 @A4

If you intend to create panels with laser cut patterns, the design needs to be kept within the red bounding box.

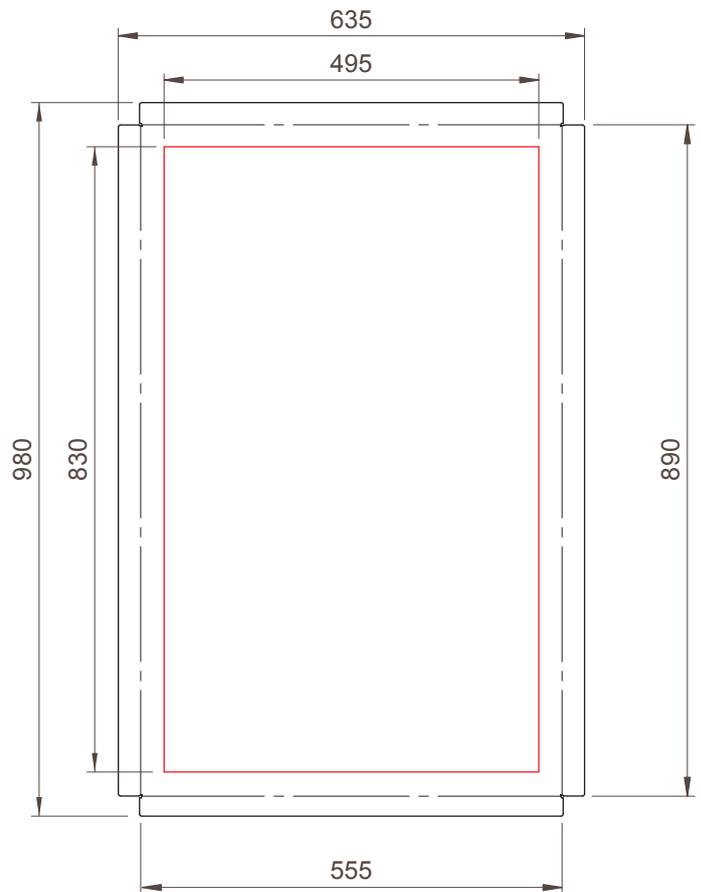

Files must be dxf, eps or ai.

Sublimated or vinyl-wrap images should refer to the dashed lines with additional 10mm of bleed.

Images must be minimum 300dpi.

LEFT PANEL - (L)

RIGHT PANEL - (R)

240L door and back panel

Applies to Frame Bin Enclosure 240L, with panels (WBE-F240-PAN)

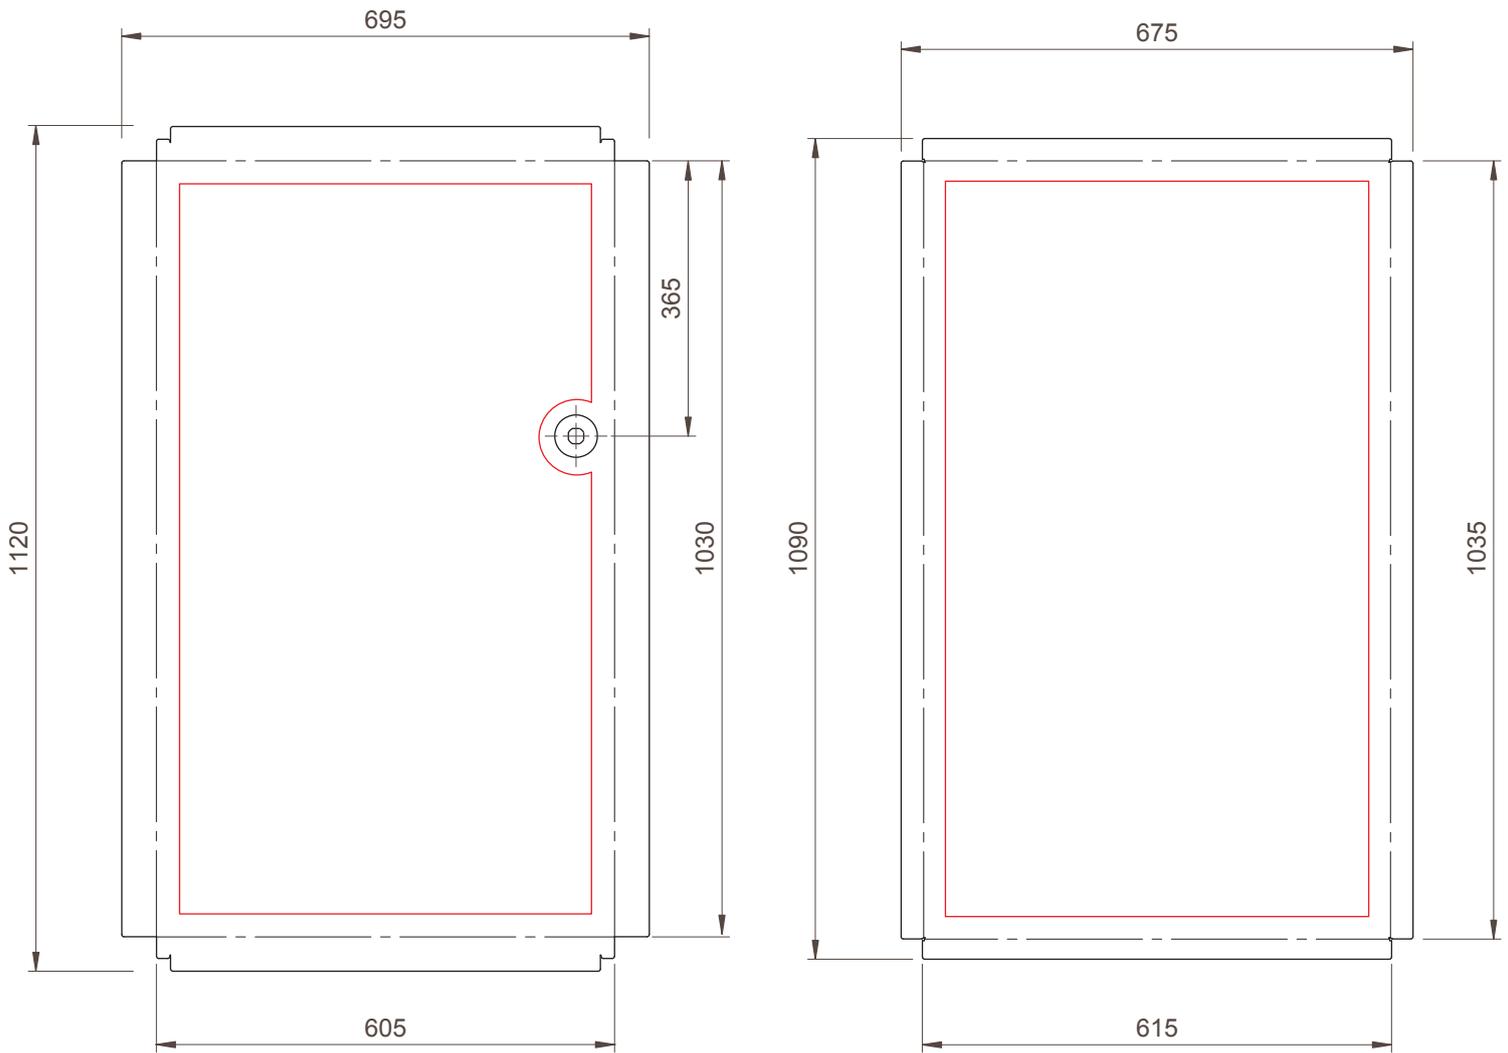

Scale 1:10 @A4

If you intend to create panels with laser cut patterns, the design needs to be kept within the red bounding box.

Files must be dxf, eps or ai.

Sublimated or vinyl-wrap images should refer to the dashed lines with additional 10mm of bleed.

Images must be minimum 300dpi.

DOOR PANEL - (D)

BACK PANEL - (B)

240L left panel - (L)

Applies to Frame Bin Enclosure 240L, with panels (WBE-F240-PAN)

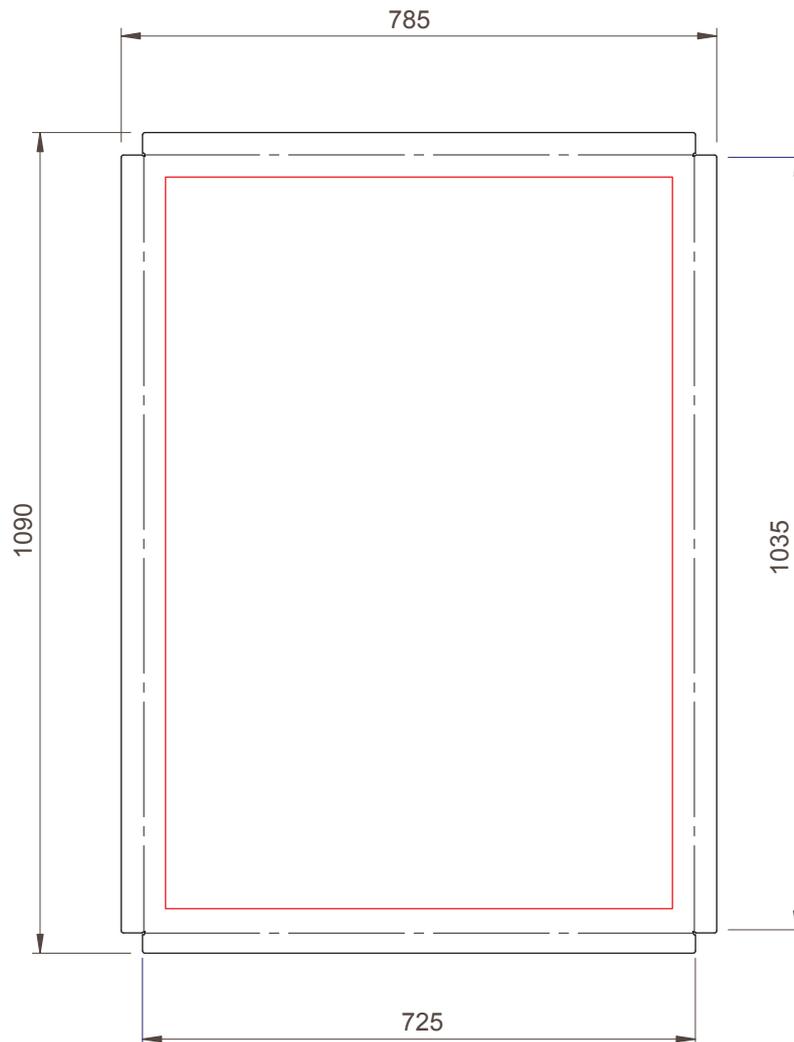

Scale 1:10 @A4

If you intend to create panels with laser cut patterns, the design needs to be kept within the red bounding box.

Files must be dxf, eps or ai.
