engage us for custom design

Building on 36 years of manufacturing experience for the public domain, Street Furniture Australia has partnered with hundreds of designers and clients in developing an idea or concept design into a safe and refined product ready for manufacture.

Areas of expertise include metals, composites and eco-certified hardwood as well as the methods of 3D printing, fabrication, laser cutting and casting. As part of the service, we provide shop drawings and full working prototypes for approval prior to production.
