

aria seating system

The Aria Seating System is a contemporary, modular system which uses a range of Aria seats, benches, and standard parts to enable tailored configurations including rings, 'S' curves, and 'C' shapes.

To create an Aria Seat or Bench, select an insert and set of legs to form a Seat or Bench. The Aria Seats or Benches can then be combined with panel connectors, to form a seating system.

Aria products are a part of a modular furniture system. To create your own shape and size, visit build.streetfurniture.com
