Some options incur additional fees and lead time.

The Arqua fountain range adheres to Australian drinking water guidelines. Drinking water connected must be at a 7pH level for human consumption. Recommended operating temperature range from 5°C to maximum 60°C. Recommended operating pressure is minimum 0.5 bar (50Kpa) to maximum 5 bar (500Kpa). Installer must check pressure from the relief valve as required. Where a filter is included, the filter cartridge needs to be periodically replaced as per Maintenance guidelines.
