How to order in 5 steps

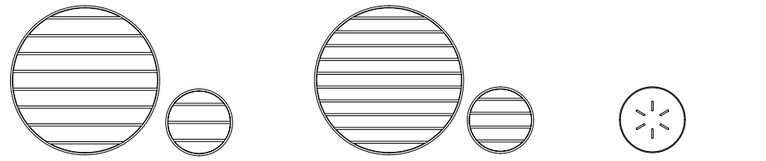

Select one per category to specify your product.

1. Select product

☐ Chair ☐ Love Seat ☐ Stool ☐ Bar Stool ☐ Coffee Table ☐ Table

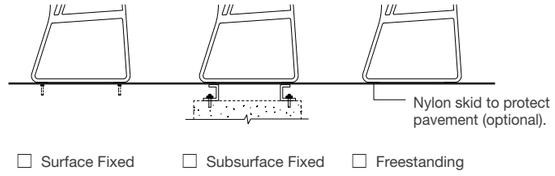

2. Select top (table and stool)

☐ Battened, 85x30 ☐ Battened, 63x30 ☐ Solid *(Stool Only)*

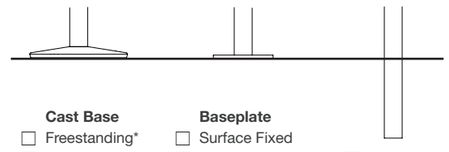

3. Select base and mounting

Chair and Love Seat

☐ Surface Fixed ☐ Subsurface Fixed ☐ Freestanding

Stool and Table

Cast Base
☐ Freestanding*
☐ Surface Fixed

Baseplate
☐ Surface Fixed
☐ Subsurface Fixed
☐ Core Drilled

**Supplied with a weighted base for bar stool.*

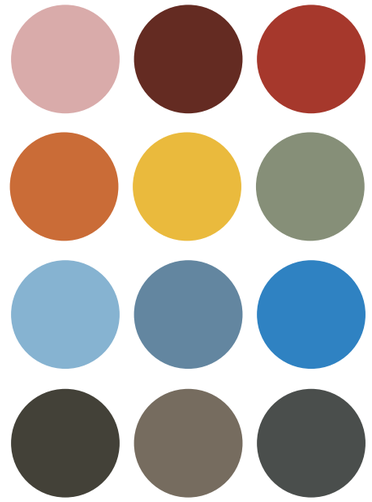

4. Select batten colour

- Aluminium Wenge
- Aluminium Bush Cherry
- Aluminium Spotted Gum
- Aluminium Beach Oak Grey
- Aluminium Curly Birch
- Aluminium powder coated *(For the full colour chart, go to streetfurniture.com/colour-chart)*
- Aluminium anodised
- Eco-certified hardwood *(Timber requires oiling every three months)*
- Eco-certified WoodPlus™ (Engineered Wood)

5. Select frame colour

For the full colour chart, go to streetfurniture.com/colour-chart

Colours shown are indicative only, variations may occur in printing.

INSPIRATIONS

How would five leading Australian landscape architects design a 'Third Place' to spark joy in our increasingly dense cities?

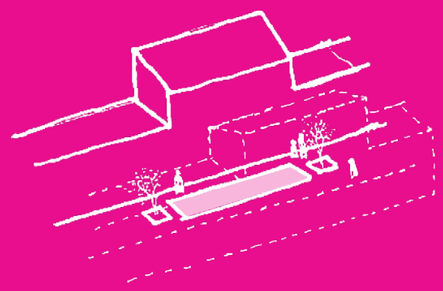

"A THIRD PLACE IS A NEUTRAL GROUND. A PLACE WHERE PEOPLE CAN COME TOGETHER AND FEEL A SENSE OF BELONGING."

– Ray Oldenburg,
author of *'The Great Good Place.'*

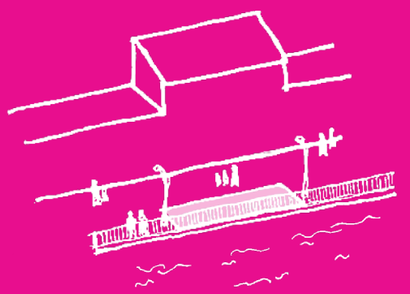

Each firm or individual was invited to sketch a 3x10m space showcasing the Piatto Outdoor Dining range.

01
STREETSCAPE

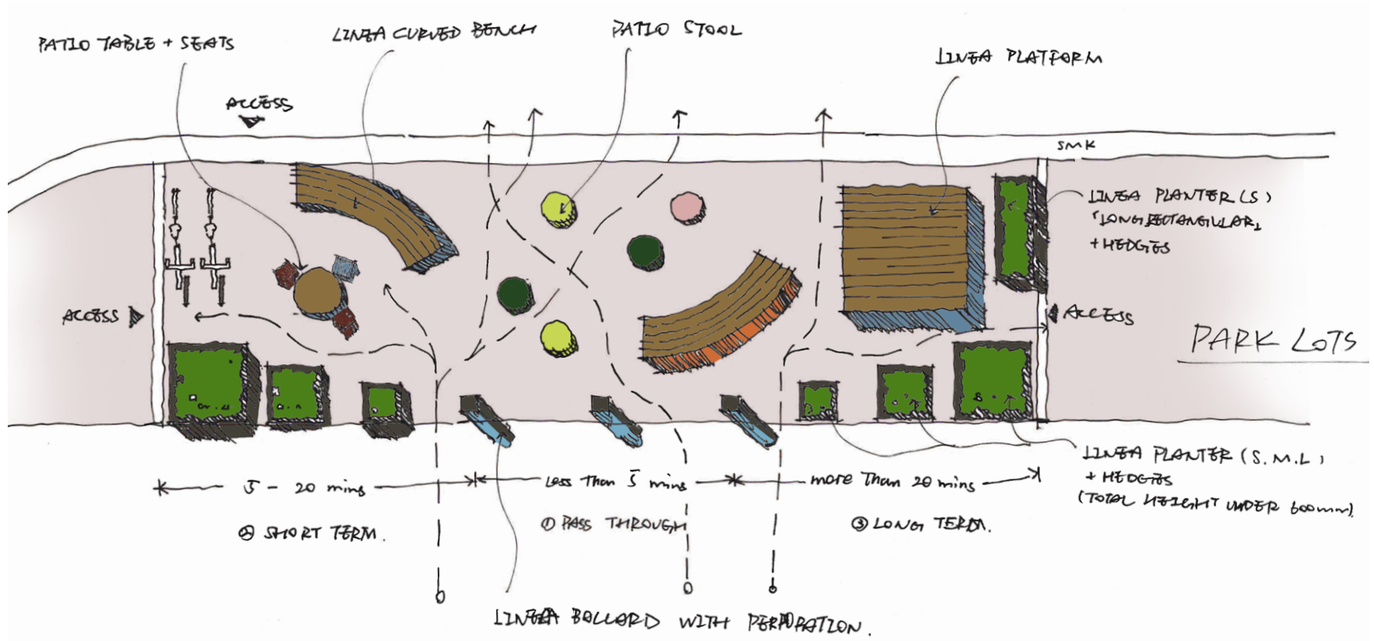

We have drawn inspiration from our own commutes to work and the lack of third place spaces within Subiaco. Our design takes place within two parallel parking bays along Rokeby Road which experiences a high level of foot traffic.

As the area of our third place is limited we wanted to use a colour scheme that would be representive of a commuter's length of stay within the space. We have used distinctive colours on each street furniture piece as our primary way of delineating certain lengths of stay to individual nodes (see colour scheme below).

When it comes to streetscapes, sightlines are one of the most integral parts of a design, so we wanted to think of ways to indicate that a zone is protected as well as easily accessible. Bollards are retrofitted as a safety buffer, while various sized planter boxes are used in an intentional way to create natural openings between barriers.

About the designer

emerge ASSOCIATES

Emerge Associates, Perth Office

At Emerge Associates, our designers work collaboratively to deliver innovative and sustainable outcomes. The team that designed this space ranged from our experienced Senior Landscape Architects to our up-and-coming graduates and interns. As with every project we undertake, our design team gathered around - with trace paper and pens - sketching, discussing and problem-solving. We were able to provide a holistic approach to this design, as each designer involved in this project offered a unique yet practical perspective.

02
LANEWAY

Tucked within the city’s overlooked spaces, the laneway is reimagined—not as a mere passage but as a vibrant 'third place' where people can gather, pause and connect. Once defined by hard surfaces and transience, it is transformed into a welcoming, human-scaled environment that encourages a person to dwell.

At the center of this transformation stands a lightweight steel frame, becoming an open framework that defines space without enclosing it. A subtle sense of shelter is created while allowing the space to remain connected to its surroundings.

Flexibility is key. Furniture moves freely within this structure, allowing the effortless shift from quiet daytime retreat to lively evening hub. Yet, it is the colour that truly brings the laneway to life. Vibrant hues extend beyond the enclosure, spilling onto pavement and façades, threading the place into the city’s urban fabric. More than just a visual accent, colour fosters a sense of identity, transforming the transient laneway into a place of belonging, interaction and unexpected delight.

About the designer

TaylorBrammer

Taylor Brammer, Sydney Office

Taylor Brammer Landscape Architects is a multi-award-winning design practice offering Landscape Architecture, Urban Design, Heritage Conservation and Environmental Design services across Australia and internationally. The firm has created a broad spectrum of impactful projects – people-first places that are engaging, environmentally respectful, and designed to leave a lasting legacy for future generations. Next year, we’ll proudly celebrate 25 years of operation, with studios based in Sydney, Austinmer and Newcastle, NSW.

03
WATERFRONT

Where will our waterfront be in the future?
How will we engage with it? And how may it look?

For Street Furniture Australia's Outdoor Dining in the Third Space design challenge, GLAS Landscape Architects have proposed a dynamic and accessible waterfront scenario with a series of planted floating pontoons – which can be moved and docked anywhere along the water's edge. The Piatto and Linea suite provide a range of individual and group seating for an engaging waterfront experience, nestled in nature and enhancing biodiversity.

About the designer

GLAS landscape architecture and urban design

GLAS Landscape Architecture and Urban Design, Melbourne Office

GLAS is an award-winning Landscape Architecture studio creating inclusive, sustainable public spaces that connect nature, place and community. Guided by core values of nature, climate and community, GLAS designs landscapes that enhance ecological systems and human wellbeing. Committed to climate-positive design, they deliver projects ranging from large-scale masterplans to detailed spaces, fostering biodiversity, accessibility, and long-term public benefit. Through collaboration and innovation, GLAS creates environments where people and nature thrive together.

04
POCKET PARK

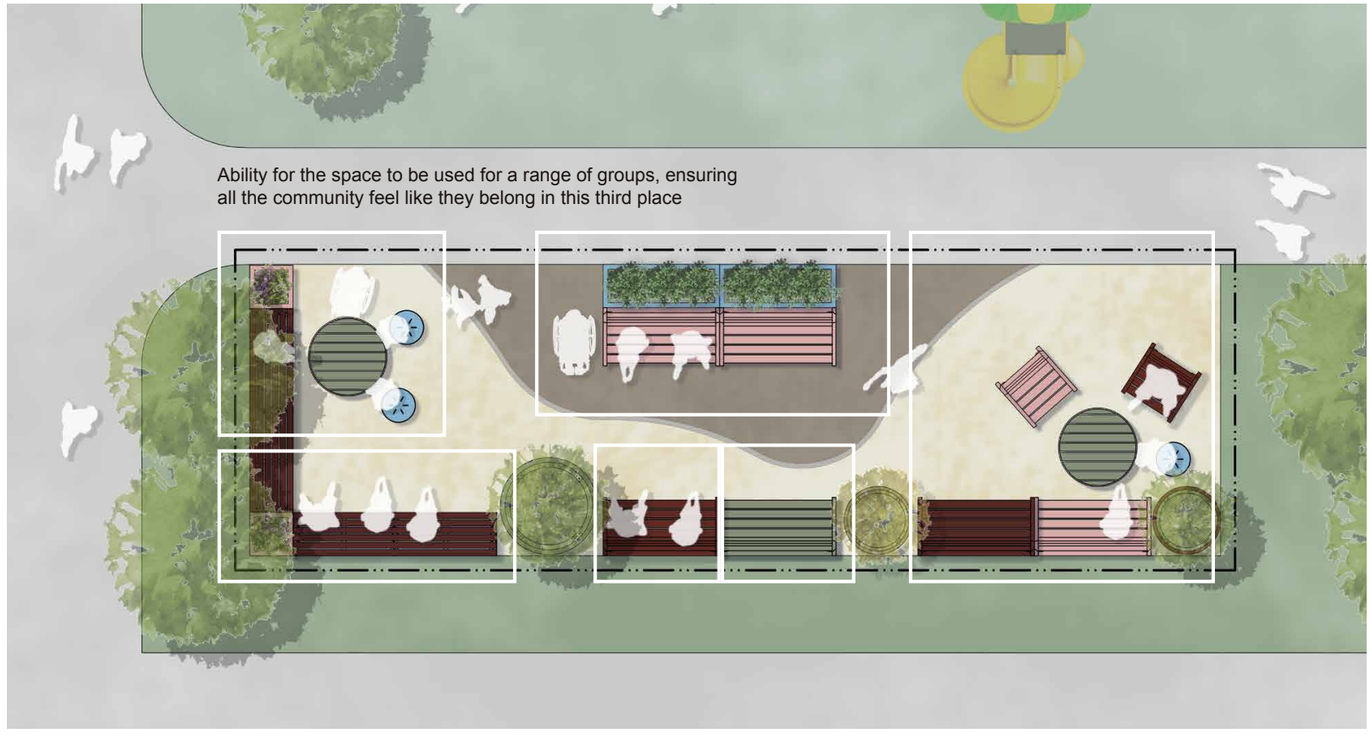

This outdoor environment reimagines a compact 3x10m pocket park as a series of ‘seating rooms’ that maintain strong visual connections to the surrounding park while creating an informal border for safety near the adjacent road.

Inspired by Third Place Theory, the design fosters an inclusive, welcoming space where people of all ages and abilities can gather, interact and build meaningful connections outside of home and work.

Clear circulation paths ensure ease of movement, while a thoughtful mix of seating accommodates singles, couples, families and larger groups, including wheelchair access and seating space. With inclusivity a cornerstone of the third place theory, varied seating with backrests and armrests provides added comfort, particularly for elderly users.

The arrangement encourages flexibility—supporting both social gatherings and quiet, individual moments—with all ‘seating rooms’ subtly oriented toward each other to spark a sense of community without compromising personal space.

About the designer

Vee Design, Brisbane Office

Vee Design is a landscape architecture and urban design firm transforming spaces across Australia. We specialise in education, streetscapes, planned communities and the public realm—delivering design that connects people and celebrates place. Our motto: Think Different, Create Connections, Make Change.

Rachael Hoffman is a passionate landscape architect who creates spaces where communities thrive. She supports emerging professionals and fosters collaboration through events, workshops and mentoring to grow a vibrant, connected industry.

05
CAMPUS

An adaptable decompression outdoor environment maximising functioning space with a focus on greening, cooling and biodiversity.

Students can connect with nature, enjoy fresh air and blue sky, pause and reflect by themselves or in small groups. The layout promotes flexibility using furniture configurations that allow students to bump in, and create possibilities in the third space.

The setting includes curvilinear seating for a more organic and inviting feel and within a garden setting for group interactions. Accessible seats and tables for study away from circulation pathways create a great place to relax or work between lectures!

This project presented an engaging design challenge, seamlessly blending Street Furniture Australia furniture into a thoughtfully planned setting.
