New self-watering system

Introducing the WaterUps® Wicking Bed
in Street Furniture Australia planters.

Save Water

Only uses 20% of the water compared to traditional top irrigation*.

Save Cost

Reduces maintenance – plants can last up to 4 weeks without additional watering.

Healthier Plants

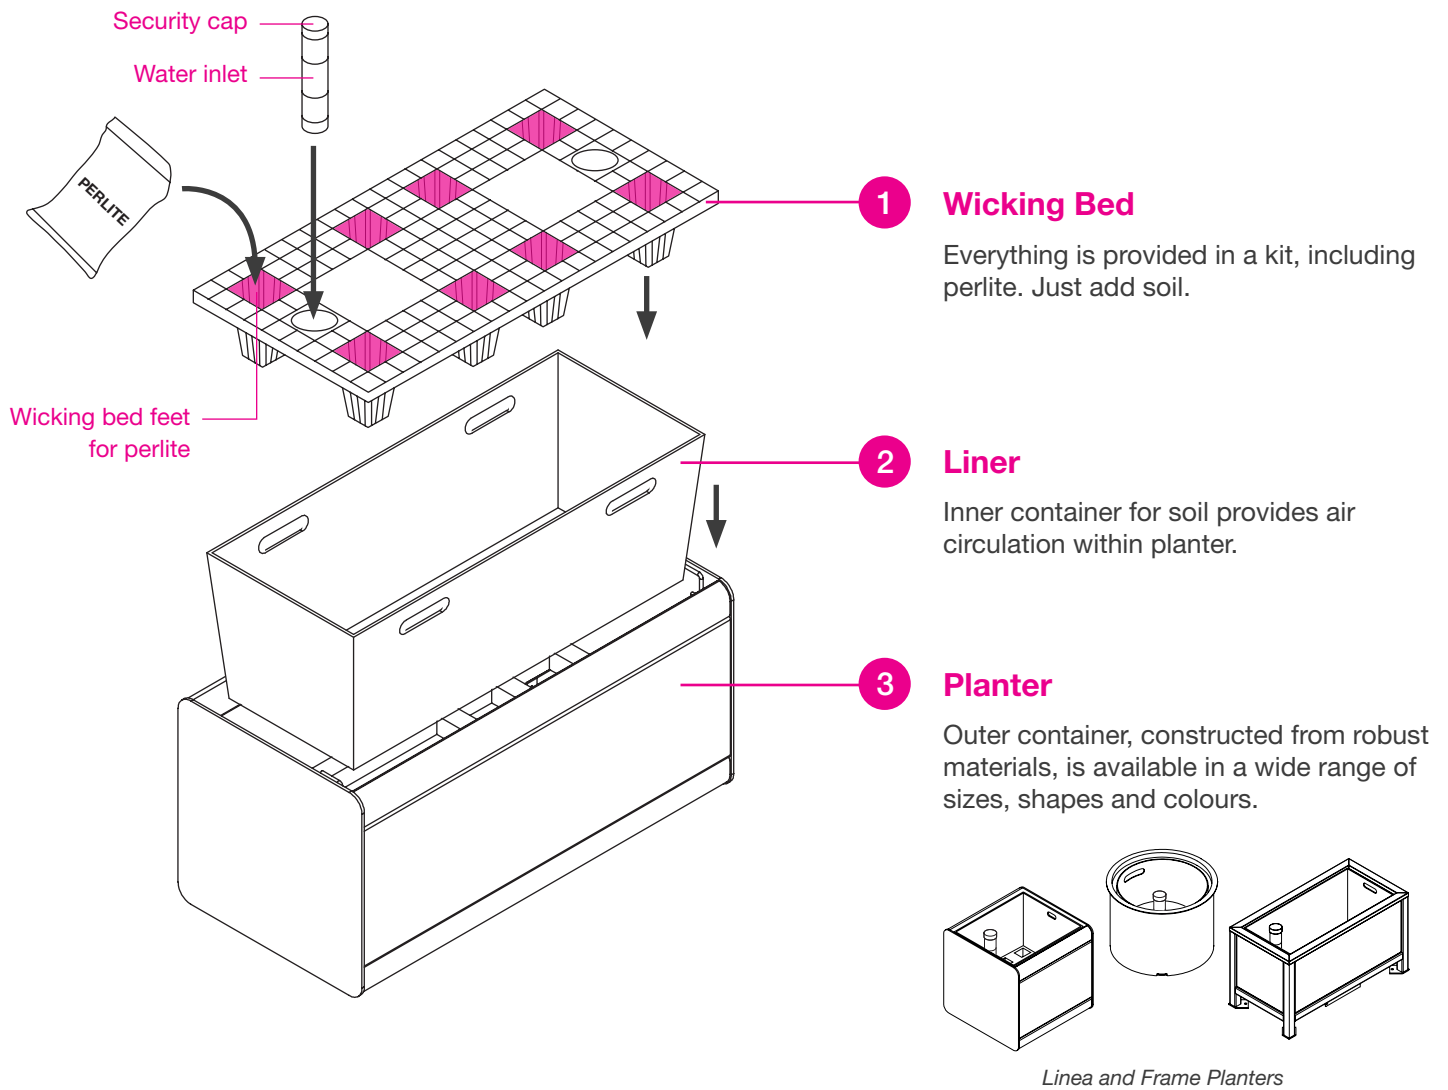

Prevents overwatering and draws up water and nutrients close to the roots.

Australian Made

Made in Australia from 100% recycled plastic.

* 2018 study by Sydney Garden Research Centre.

How it works

Remove cap and fill water in the water inlet until water appears from overflow hole.
Wicking bed system draws water from the water reservoir to nourish the plant roots.
